REVISED AREA DESCRIPTION:

West Behm Canal (Fishery area 101-91): Beginning June 9, waters of West Behm Canal, **west of the longitude of Chin Point**, enclosed by a line from Brow Point to a point 1 mile west of Brow Point at 55°50.13' N. lat, 131°44.16' W. long), then south to a point at 55°43.92' N. lat, 131°45.44' W. long (located 1 mile west of the northernmost tip of Bushy Point), then south to a point at 55°39.09' N. lat, 131°44.69' W. long (located 1 mile west of Escape Point), to the northernmost tip of Grant Island, then due east to a point on the Revillagigedo Island shoreline.

In Neets Bay, the waters east of the longitude of Chin Point to the longitude of the easternmost tip of Bug Island become part of the expanded Neets Bay THA on June 9.

Stone Rock Bay (Fishery area 102-09): new area: Waters of Clarence Strait north of the latitude of 54°43.34' N. lat, **west** of the longitude of 131°56.42' W. long, and south of the latitude of the southernmost tip of the northern entrance to Stone Rock Bay at 54°45.98' N. lat.

The description for Stone Rock Bay published in the *2013 Spring Troll Management Plan* and in a news release issued April 26 incorrectly stated "...**east** of the longitude of 131°56.42' W. long...".

Sitka Sound Area (Fishery area 113-41): Within the waters of the Sitka Sound Area fishery, **Silver Bay will be open with the exception of Bear Cove, which is closed east of a line between the ADF&G regulatory markers located within the cove.**

DEEP INLET TERMINAL HARVEST AREA (113-38):

The waters of Deep Inlet THA are being managed on a rotational gear fishing schedule. Through June 15, the waters of Deep Inlet west of 135°20.75' W. long, are included in the Sitka Sound spring troll area. Beginning June 16, all waters within the Deep Inlet THA boundaries will be excluded from the Sitka Sound spring troll area. A description of THA boundaries and fishing schedules can be found in the Deep Inlet news release issued April 3.

FREDERICK SOUND AREA (110-31):

The Frederick Sound area is now extended to include those waters of District 10 that are north and west of a line from Wood Point (56°59.75' N. lat., 132°56.95' W. long.) to Beacon Point, excluding waters of Farragut Bay north and east of a line from Bay Point to Grand Point and also excluding those waters of Thomas Bay that are north and east of a line from Point Vandeput (57°01.25' N. lat., 133°00.00' W. long.) to Wood Point.

CODED-WIRE-TAGGED FISH

The heads of all adipose fin-clipped salmon must remain attached to the fish until the fish are sold [5 AAC 29.140 (b)]. Permit holders who freeze their catch onboard are asked to contact the department prior to fishing so that sampling and fish ticket issues can be discussed. An Exemption Permit is required to allow the removal of heads from Chinook salmon harvested in the spring areas prior to delivery.

CATCH REPORTING

It is extremely important to keep fish caught in different fishery areas separated so that accurate dockside sampling can occur by department personnel. In order to maximize the harvest of Alaska hatchery-produced Chinook salmon in the spring fisheries, catches must be reported accurately. If more than one area or fishery is fished, or fish are kept for more than one period, each troller and tender is required to keep and report these catches separately on separate fish tickets (5AAC 29.130). The fishery name and the fishery area number must be reported on all fish tickets, as well as dates that the fishing trip started and ended. All fish legally retained in the commercial salmon troll fishery, whether for sale or retained for **personal use, must be recorded on a fish ticket.**

NEW REGULATIONS ADOPTED BY THE ALASKA BOARD OF FISHERIES

During the 2012 Board of Fisheries (BOF) meeting, new regulations were adopted that will affect the management of the 2013 spring troll fisheries. **Retention of coho salmon opened June 1.**

A person may sport fish from a registered commercial salmon hand troll or power troll vessel [5 AAC 47.041 (a)], though **may not sport fish and commercial fish for salmon from the same vessel on the same day** [5 AAC 47.041 (f)]. A person who sport fishes from a vessel licensed for commercial fishing, other than a charter vessel when paying clients are onboard, shall mark the salmon by **removing its dorsal fin** immediately upon bringing a salmon onboard [5 AAC 47.041 (c)].

GROUNDFISH BYCATCH

Fishermen are reminded that lingcod may be taken as bycatch in the salmon troll fishery from May 16 through November 30, or until lingcod area allocations are taken, whichever occurs first. The amount of lingcod bycatch allowed in the troll fishery varies by Lingcod Management Area. Lingcod retention closures will occur as allocations are taken. For additional information on groundfish bycatch in the salmon troll fishery, refer to the *2013 Spring Troll Fishery Management Plan*, the department news release issued January 2, "*Groundfish Bycatch in the Commercial Troll Fishery*", or contact the groundfish staff in Sitka at 907-747-6688.
